PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in Java, Spring Boot, React.js, MySQL, and REST APIs. Skilled in building scalable web applications, integrating databases, and developing end-to-end solutions using industry-standard software development practices.

TECHNICAL SKILLS & CODING PROFILES

- **Languages:** Java, Python, JavaScript (ES6+)
- **Web Technologies:** HTML, CSS, Bootstrap, React.js
- **Frameworks:** Spring Boot, Spring MVC, Hibernate, Spring Data JPA, REST APIs
- **Databases:** MySQL, MongoDB (Basic)
- **Tools:** Git, GitHub, Postman, Maven, Eclipse IDE, VS Code

INTERNSHIPS

- **Java Full Stack Developer Trainee** | Codegnan Destination April 2025 – Oct 2025
 - Completed intensive training in Core Java, Advanced Java, JDBC, Servlets, JSP, Spring Boot, Hibernate, React.js, and MySQL.
 - Developed full-stack applications using MVC architecture, REST APIs, and database integration.
 - Built projects including Hospital Management System and Weather Application. Utilized Git, GitHub, Maven, and Postman for version control, API testing, and development workflows.
- **Salesforce Developer Virtual Internship** | SmartInternz Jul 2024 – Aug 2024
 - Developed a CRM-based Laptop Rental Application using Salesforce to manage laptop inventory, customer details, and rental transactions.
 - Built Lightning Web Components (LWCs) to create an interactive user interface for booking, tracking, and returning laptops.
 - Implemented Apex classes, triggers, and automation flows to streamline rental approvals, status updates, and business processes.

PROJECTS

- **Hospital Management System | Tech Stack: Java, Spring Boot, Spring Data JPA, MySQL, Postman**
 - Developed Hospital Management System using Spring Boot and MySQL to manage patient, doctor, and appointment records through complete CRUD operations.
 - Designed and implemented RESTful APIs following MVC architecture, enabling efficient data management and modular application development.
 - Tested and validated API endpoints using Postman, ensuring application reliability and accurate data flow across all modules.
 - Integrated Spring Data JPA with MySQL to streamline database operations and ensure reliable storage and retrieval of hospital records.
- **Face Emotion Detection System | Tech Stack: Python, CNN, OpenCV, TensorFlow**
 - Developed a Face Emotion Detection System using Python, CNN, and OpenCV to identify and classify facial expressions into multiple emotion categories.
 - Applied image preprocessing and feature extraction techniques to improve emotion recognition and model performance.
 - Trained and evaluated a Convolutional Neural Network (CNN) on facial image datasets for accurate emotion classification.

EDUCATION

- **Bachelor of Technology | Computer Science and Engineering** 2022 – 2025
Prasad V Potluri Siddhartha Institute of Technology, Vijayawada CGPA: 7.83

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank: Problem Solving, MySQL, Java
- Codegnan Destination: Java Full Stack Developer
- Smart Interviews: Smart Coder Silver Certificate

EXTRACURRICULAR ACTIVITIES

- Active member of the College Literature Club.
- Participated in multiple Group Discussions (GDs), JAM sessions, debates, and advertising events.
